# ATPL INTEGRATED

EASA COURSE PROGRAM

**WE BUILD**

---

# EXPERIENCES

Flying Academy's mission is to make YOU the most professional, skilled and dedicated pilot. We are completely equipped for the challenges of employment opportunities of airlines all over the world.

Our mission is a commitment to our students based on personal approach and care, guide them step by step, close monitoring, and adapting the training.

This is our promise!

# OUR STORY

... SO FAR

Perfect safety record,  
unprecedented student support,  
and best in class training environment is our promise.

## International TRAINING

We are Flying Academy - International Flight Training center with more than three decades of experience, founded by airline pilots for future airline pilots.

## Perfect SAFETY

The regulation in the European Union is very strict about aviation safety. Our fleet is maintained at the highest levels of safety. Flying Academy prioritizes and promotes safety culture in all aspects of its operations.

## Our FLEET

Flying Academy, one of the leading global flight schools, is proud to present our fleet. It consists of single and multi-engine aircraft. The whole fleet, at both continents where we operate, consists of over 42 aircraft.

## Online TRAINING

With Flying Academy's brand new online classrooms, you can start your theoretical training without leaving the comfort of your home, in a decent amount of time!

EASA

ATPL

INTEGRATED

## WHAT IS ATPL INTEGRATED?

EASA (European Aviation Safety Agency) Remote Integrated ATPL is designed for students with little to no flying experience and want to pursue a career in aviation- according to EASA regulations. With your frozen ATPL, you may act as pilot-in-command (Captain) or co-pilot (First Officer) on aircrafts engaged in commercial air transportation.

*The Integrated ATPL program is the most professional course offered at Flying Academy, guaranteeing the best aviation experience and education. Flying Academy's highly trained professional pilots are appointed to ease your learning experience and help you become the best pilot you aspire to be.*

# COURSE BENEFITS

## SAVE YOUR TIME WITH ONLINE CLASSES

---

You will begin all of your theoretical training from the comfort of your home. Afterwards, you shall come to the school to carry out the flight training portion of your course.

## BEGIN YOUR PROFESSIONAL JOURNEY IN AVIATION

---

Become the best professional pilot you can be with our Integrated ATPL course, and continue your journey in professional piloting with any airline you prefer!

## SAVE YOUR VALUABLE FUNDS

---

This organisation of training will decrease the costs of the training, providing you with high-quality theoretical training following the current trends, while allowing you to save on the living costs.

---

# WHAT'S INCLUDED

You will have up to 750 hours of online theoretical training, which consists of:

- Lecture presentations conducted by appointed instructors
- In-depth consultations held
- Seminars and Long Briefings to incorporate your practical and theoretical training
- Stimulating assignments via Google Classroom
- Progress check monitored by your student advisor
- Temporary access to all class recordings
- Access to your eLearning (LMS) portal where you will find all interactive study material.
- Possibility of doing your exams at school or any approved Civil Aviation Authority Center.

## EASA ATPL INTEGRATED IN NUMBERS

**205 h**

**FLIGHT TIME**

**750 h**

**THEORY**

**1x**

**ATPL FROZEN  
LICENCE**

## WHAT ARE THE **ADVANTAGES**

- Our virtual classroom is set up with the latest technological advancements to ensure a prime level of learning.
- Students can attend lectures, go through the reading materials, complete assignments, and fulfill their theoretical requirements.
- No geographic restrictions
- Students can save tremendous time and funds on their overall pilot training!
- Courses are broadcasted LIVE so that students may voice questions and enable optimum interactivity
- At the end of each “class”, students have the opportunity to partake in guided discussions to clarify any misunderstandings they might have concerning the lecture.

COURSE ENTRY

# REQUIREMENTS

**TO BE AT LEAST  
18 YEARS OLD**

---

**TO BE AT LEAST CLASS  
1 MEDICAL HOLDER**

---

**TO PASS OUR INITIAL  
ASSESSMENT**

---

**TO HAVE SUFFICIENT  
KNOWLEDGE OF  
MATHEMATICS & PHYSICS**

---

**PROFICIENCY IN THE  
ENGLISH LANGUAGE**

---

# THEORETICAL TRAINING

The course covers all 14 subjects of the PPL syllabus. The applicant has to go through ground training covering:

- Air Law
- Principles of Flight
- Mass and Balance
- Flight Performance
- Communication
- IFR and VFR
- Airframes and Systems
- Instrumentation
- Radio Navigation
- General Navigation
- Meteorology
- Human Performance
- Flight Planning
- Operational Procedures

During the Zero to CPL course, the trainee will complete theoretical courses for PPL(A), IR(A), CPL(A), and MEP (A).

Afterwards, you shall come to the school in the Czech Republic to carry out Phases I – VI of the practical training.

# PRACTICAL TRAINING PHASES

## **DEVELOPING BASIC FLIGHT SKILLS**

Develop the knowledge, skills and habit patterns needed for a solo flight, including the basic maneuvers, airport operations, emergency procedures and ground reference maneuvers.

## **INITIATION TO COMPLEX FLYING**

Develop skills with advanced maneuvers and practice cross-country flying.

## **INTRODUCTION TO COMMERCIAL FLYING**

Practise night flying and get proficiency, experience and confidence in cross-country operations.

## **ADVANCED FLIGHT SKILLS**

During this stage you will also complete your theoretical preparation for ATPL exams - 350 hours and pass the rest of the exams at the Civil Aviation Authority.

## **ADVANCED UPRT**

Understand how to cope with the psychological and physiological aspects of dynamic upsets in aeroplanes and develop strategies to mitigate those effects.

## **MCC AND JOC**

Get familiar with processes and procedures in a multi-pilot cockpit during MCC and also get jet handling experience with JOC.

# EXAMINATION

During the training, you will have to pass the 14 ATPL theory exams to prove a sufficient level of knowledge appropriate to the privileges of the holder of an ATPL(A) in accordance with the EASA Part FCL requirements. The exams will be conducted at the Flying Academy test center under Austro Control authority.

# TRAINING LOCATIONS

## OUR LOCATIONS

With our international community, we also have our training locations spread across the globe. We have four bases in the heart of Europe. For this course you can join us in following bases.

### PRAGUE CZECH REPUBLIC

The Czech Republic is the perfect location for both practical and theoretical training. Flying Academy is the first choice of pilot training for future Professional or Private Pilots from all continents.

### VIENNA - BAD VÖSLAU AUSTRIA

Vienna, Austria is the perfect location for your professional pilot training. With new modern equipment, exclusive studios and technology, combined with our highly trained and experienced instructors.

### BRNO WEST FALCON FIELD CZECH REPUBLIC

Located in the heart of Europe, the Brno Falcon Field allows students to explore all different regions of Europe from the cockpit by being in the middle ground between Eastern & Western Europe

### BRNO TUŘANY CZECH REPUBLIC

Flying Academy is located at Brno Tuřany International Airport (LKTB). Use an opportunity to travel Europe as a part of your flight training, in a multinational airport.
